"where we treat you like Royalty"

Ordering Physician's Signature (Legally Required)

Please Schedule directly with Patient	Referring Physician
tient Name	Date of Birth
st Contact #	Secondary #
gnosis / Reason for Scan	
ergies (Please List)	
Needed O Deliver to office O Send with Patient Follows	low-up scheduled on
patient pregnant? O Yes O No	
NUCLEAR MEDIC	INE PROCEDURES
Musculoskeletal	Endocrine
O Bone Scan – Whole Body	O Parathyroid Scan with SPECT
 Bone Scan/SPECT (i.e., tomographic slices) 	O I-123 Thyroid Uptake/Scan
,	
O Bone Scan – Triple Phase	○ I-131 Whole Body Scan
O Bone Scan – Triple Phase (blood flow, blood pool & planar images)	○ I-131 Thyroid Therapy
O Bone Scan – Triple Phase (blood flow, blood pool & planar images) Area of body where blood flow images	
O Bone Scan – Triple Phase (blood flow, blood pool & planar images)	○ I-131 Thyroid Therapy
O Bone Scan – Triple Phase (blood flow, blood pool & planar images) Area of body where blood flow images	○ I-131 Thyroid Therapy I-131 Dose Amount
O Bone Scan – Triple Phase (blood flow, blood pool & planar images) Area of body where blood flow images are to be obtained	○ I-131 Thyroid Therapy I-131 Dose Amount Renal
O Bone Scan – Triple Phase (blood flow, blood pool & planar images) Area of body where blood flow images are to be obtained Gastrointestinal O HIDA Scan w/GBEF O HIDA Scan (biliary tract)	I-131 Thyroid Therapy I-131 Dose Amount Renal Renal Scan with Lasix Renal Scan without Lasix
O Bone Scan – Triple Phase (blood flow, blood pool & planar images) Area of body where blood flow images are to be obtained Gastrointestinal O HIDA Scan w/GBEF O HIDA Scan (biliary tract) HIDA Scan (SOD Protocol)	I-131 Thyroid Therapy I-131 Dose Amount Renal Renal Scan with Lasix Renal Scan without Lasix Cardiac
O Bone Scan – Triple Phase (blood flow, blood pool & planar images) Area of body where blood flow images are to be obtained Gastrointestinal O HIDA Scan w/GBEF O HIDA Scan (biliary tract) O HIDA Scan (SOD Protocol) O Gastric Emptying Scan	I-131 Thyroid Therapy I-131 Dose Amount Renal Renal Scan with Lasix Renal Scan without Lasix Cardiac Cardiac Cardiac Ejection Fraction - MUGA
O Bone Scan – Triple Phase (blood flow, blood pool & planar images) Area of body where blood flow images are to be obtained Gastrointestinal O HIDA Scan w/GBEF O HIDA Scan (biliary tract) HIDA Scan (SOD Protocol)	I-131 Thyroid Therapy I-131 Dose Amount Renal Renal Scan with Lasix Renal Scan without Lasix Cardiac Cardiac Cardiac Ejection Fraction - MUGA Inflammation/Infection/Tumor
O Bone Scan – Triple Phase (blood flow, blood pool & planar images) Area of body where blood flow images are to be obtained Gastrointestinal O HIDA Scan w/GBEF O HIDA Scan (biliary tract) O HIDA Scan (SOD Protocol) O Gastric Emptying Scan	I-131 Thyroid Therapy I-131 Dose Amount Renal Renal Scan with Lasix Renal Scan without Lasix Cardiac Cardiac Cardiac Ejection Fraction - MUGA
O Bone Scan – Triple Phase (blood flow, blood pool & planar images) Area of body where blood flow images are to be obtained Gastrointestinal O HIDA Scan w/GBEF O HIDA Scan (biliary tract) HIDA Scan (SOD Protocol) O Gastric Emptying Scan Liver/Spleen Scan	I-131 Thyroid Therapy I-131 Dose Amount Renal Renal Scan with Lasix Renal Scan without Lasix Cardiac Cardiac Cardiac Ejection Fraction - MUGA Inflammation/Infection/Tumor

PREPARATION FOR SPECIAL EXAMINATIONS

NUCLEAR MEDICINE (BONE SCAN, THYROID, GALL BLADDER, DAT SCAN, MUGA):

Just relax and go about your normal routine

- Eat normally unless otherwise instructed or you are having a gallbladder scan, (Gastric Empty Scan, HIDA scan or HIDA w/GBEF) then DO NOT eat or drink for at least 8 hours before your test.
- Do not take any narcotics for at least 12 hours before the test if having a gallbladder scan (HIDA scan).
- Take any medication as usual (unless otherwise instructed).
- For a bone scan, you will get a small injection (in an arm vein) of radiopharmaceutical that needs three hours to find its way into your bones. You may leave the imaging clinic after the injection, but you must return at the specified time the Nuclear Technologist gives you to complete the bone scan. The whole process will take approximately five hours.

AT THE SCANNING SITE:

- You'll be asked about your medical history.
- You'll be told about the scanning procedure, and you will be asked to sign a consent form.
- You'll remove any metallic objects, such as jewelry, hairpins, glasses, wigs and nonpermanent dentures.
 - FREE Parking is located behind the bank building on the upper level.

Enter door under the covered awning and take the elevator to the 2nd Floor.

WHAT TO BRING:

Please bring this form with you for your outpatient services.

Also, if you plan to file for insurance benefits, be sure to bring your insurance card.

Crown Imaging urges all patients to leave valuables at home or with relative/friend escorting you to the facility as Crown Imaging is not responsible for personal items brought to the facility.
